will be given I.P. sets to work with power this year.

Sri V. MASIYAPPA.—May I know if the Government have taken into consideration the cost of working of these oil engines with those of the power engines ?

Dr. R. NAGAN GOWDA.—Of course the cost of maintaining oil engines for purposes of pumping water will be too costlier than the electric current pumping.

Sri V. MASIYAPPA.—May I expect that the Government will sanction them early ?

Dr. R. NAGAN GOWDA.—I stated they will all be taken up during 1955-56 almost immediately.
